

Stadium Lighting Installation Guide

Warranty policy

1. During the warranty period, if there is a quality problem with the lamp, we will replace the service according to the contract warranty time.
2. During the warranty period, the customer should return the damaged goods or faulty parts to our company for inspection and repair. Then our company will send back the repaired or new parts.
3. You need to show the warranty document, and we will provide replacement warranty.
4. The following situations will not accept replacement warranty:
 - ① Damage to the lamp, including but not limited to abnormal working conditions, improper use, storage not in accordance with the instruction manual;
 - ② Disassembly, modification, improper installation or repair of the product without the authorization of the company;
 - ③ No warranty documents;
 - ④ Damage caused by environmental factors, including but not limited to fire, flood, earthquake.

Safety Warnings & Precautions

To avoid risk of fire, explosion, or electric shock:

This product should only be installed, inspected and maintained by a qualified electrician in accordance with all applicable electrical codes.

- * Verify that the power cord is correct and in compliance with applicable electrical codes.
- * The light source contained in this luminaire should only be replaced by the manufacturer or its service agent or similarly qualified persons
- * The external flexible cable or cord of this luminaire is not replaceable; if the cord is damaged, the luminaire should be destroyed

To avoid electric shock:

- * Before and during installation and maintenance, ensure that the power is off.
- * The luminaire must be powered by a wiring system that complies with local regulations and is equipped with an equipment grounding conductor.

To avoid burning your hands:

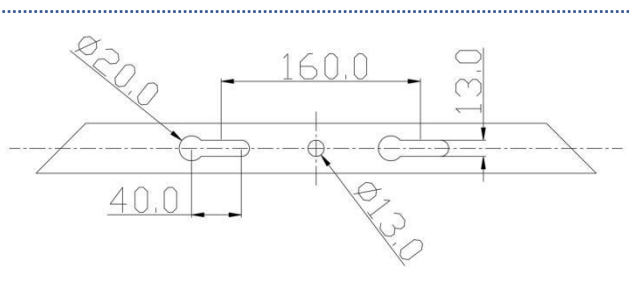

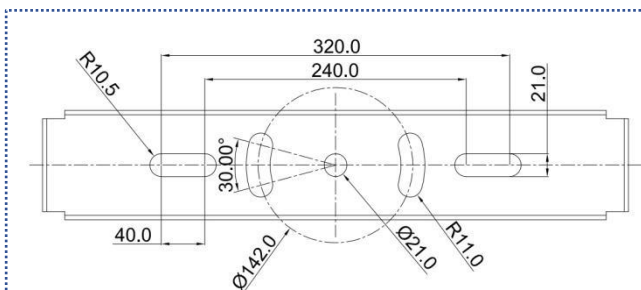

- * Before performing maintenance, ensure that the lamp has cooled down for 30 minutes after being disconnected from the power supply.

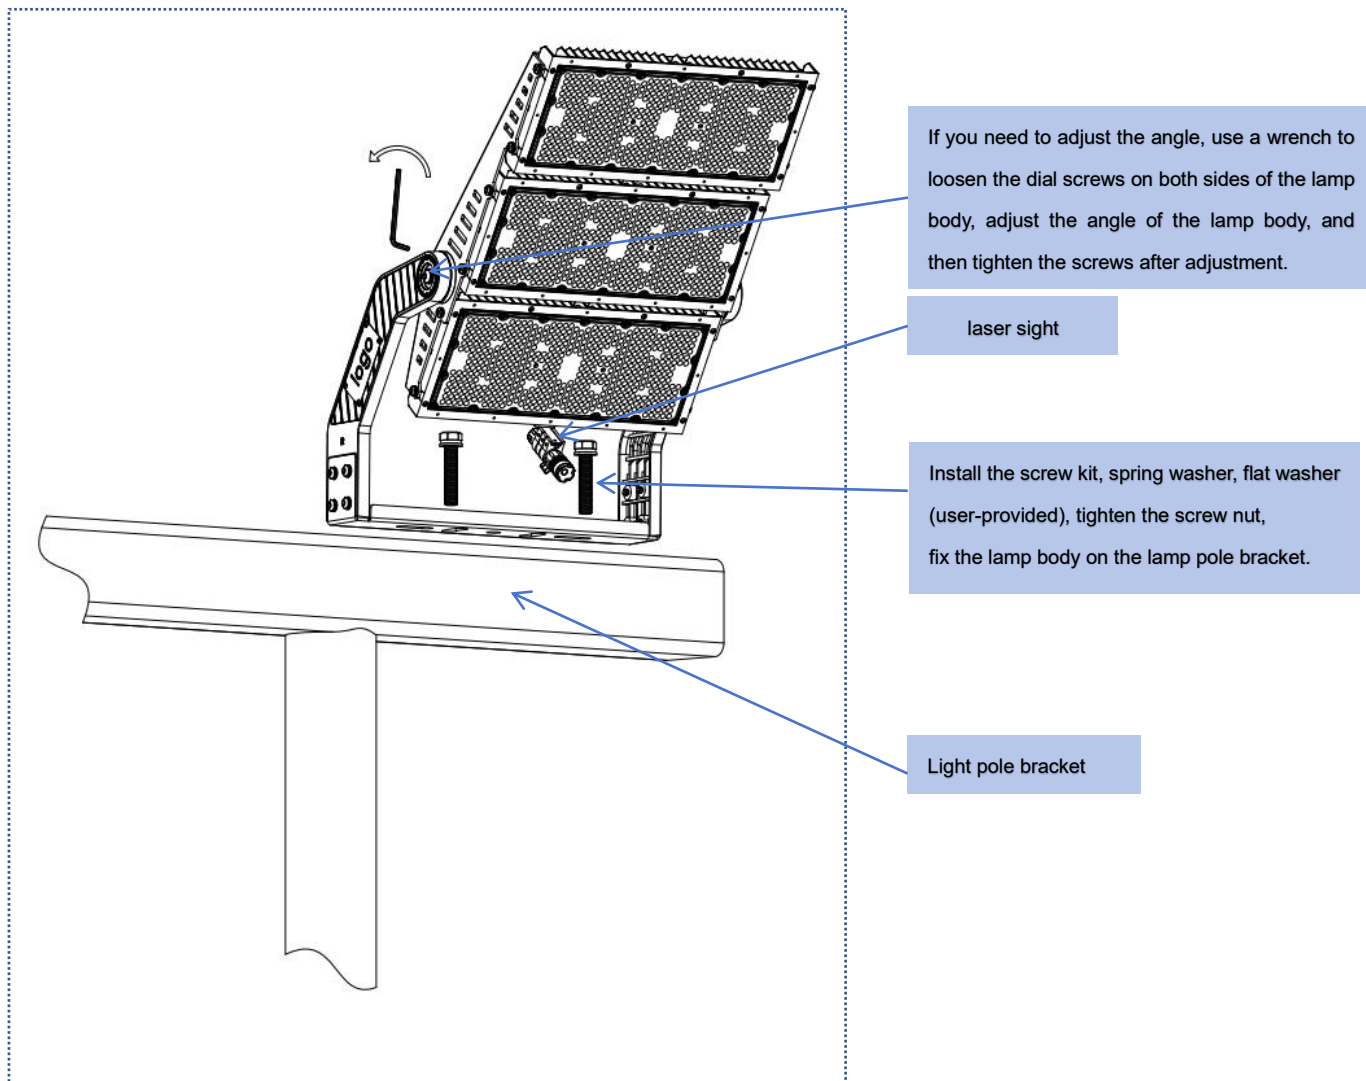

To avoid product aging:

- * Do not operate at an ambient temperature higher than that specified on the luminaire data sheet.
- * Use the correct power cord as specified on the luminaire data sheet.
- * Avoid use in environments containing sulfur, chlorine or other halides, methyl or ethyl acetate, cyanoacrylate, glycol ethers, formaldehyde or butadiene.
- * Ensure that the power supply voltage is within the voltage range specified in the specification.
- * Only use our replacement parts.
- * It is recommended to install the cable only in a dry location.
- * Only use our or equivalent parts to install the luminaire.

Installation instructions:

Bracket installation hole position: (Unit: mm)

Refer to the wiring diagram to make electrical connections and ensure insulation and waterproofing.
